Health Tourism

The most frequent health problems affecting people these days are the numerous respiratory diseases caused by stress and the increasingly polluted air that we breathe.

Do you have difficulty breathing? Do you suffer from asthma or chronic obstructive pulmonary disease?

Come to Lošinj and breathe fully once again! Join the pulmonary rehabilitation program.

PULMONARY REHABILITATION PROGRAM

The pulmonary rehabilitation program has been developed in accordance with scientifically-based clinical and diagnostic methods combined with the natural healing factors and aerosols characteristic of the island that has been considered a natural climatic health resort for more than 100 years now. The program has been designed with the aid and support of the Croatian Pulmonary Society.

Who is the program intended for?

The program is intended for both children and adults with lighter forms of obstructive breathing disorders, those suffering from asthma or chronic obstructive pulmonary disease, persons who live in cities with high industrial pollution rates, etc.

How is the program administered?

The rehabilitation is performed individually or in groups. The minimum required rehabilitation period is 14 days (2 weeks), while 21 days (3 weeks) is considered optimal.

The program is administered in Vitality Hotel Punta, Veli Lošinj.

The pulmonary rehabilitation program is adjusted to each user separately.

The program starts and ends with an examination performed by a specialist who clinically assesses the success of pulmonary rehabilitation.

For more information concerning the pulmonary rehabilitation program, visit the following website.

Camping Cum Cane

TIP:

Project „Camping Cum Cane“ including dog trainer - free of charge

Are you a dog owner? Feel free to take it with you on your vacation, while our Slatina, Čikat and Baldarin campsites have a special program called "Camping Cum Cane" for the enjoyment of both dog owners and their four-legged pets. Your dog will be more than welcome in our campsites, and upon registration they will receive a pendant with an identification number and a small package of food as a small token of our appreciation.

Camping is an ideal form of vacation that provides an invaluable experience of staying in nature with the family, but having your dog with you will give your holiday a special charm. Activities with a dog like the first morning walk by the sea, swimming at sunset or relaxing on a pitch in the shade of pine trees, will be just some of the memories you will take with you.

Benefits of the "Camping Cum Cane" program for dogs and their owners:

- Dogs are welcome in all zones and types of accommodation *(except for a few mobile homes where dogs are not allowed due to guests with hair allergies)
- Free dog trainer for individual and group training *(every day during the high season in the Slatina campsite, twice a week in the Čikat and Baldarin campsites)
- Separate dog-friendly beaches
- Parkour for dog training, playing and running
- Walking trails
- Dog showers
- Signaling with buckets and poo bags for dog waste
- Dog grooming salon (only in the campsite Slatina)

In our Čikat campsite, guests have at their disposal a special excursion information point - a stall where you can get all the necessary information about boat trips, walking tours and museum offer (but also different insider information about the island) and book the trip that suits you best. Also, if you have a boat license, it is possible to book an inflatable boat, which will take you to the most hidden coves.

One of the especially attractive excursions we would like to single out is the Dolphin watching tour that we organize in co-operation with the Blue World Association where you can spot dolphins that swim freely at your fingertips.

Places from A - Z

Cres

is the largest town on the island of the same name and the second biggest town in the archipelago. You will best experience the Venetian influence if you walk along the narrow streets and lanes. Numerous churches, palaces, town gates and towers tell of the town's ancient past.

Lubenice

The historical village Lubenice is situated on a mountain ridge at 378 m above sea level. The unique location, steep cliff over the sea and magnificent house architecture are fascinating on their own merit. A cultural highlight are the concerts during the summer season.

Valun

is known through the television series „Meeting the Sun“. A small harbor and houses close to each other, along with a multitude of shops entice us to stop for a moment.

Martinšćica

is located only 1 km from the Slatina camping site. There is a nice promenade from the Tiha cove that leads right to the charming town port. The town has charming restaurants, coffee houses, one grocery store, post office and a tourist bureau.

Osor

This is an ancient town which developed into an important town for seafarers at the time of intense shipping along the coastline, given its sheltered port and numerous small coves. Apart from that, the bishop also had his seat in Osor, so even today, we stumble across remnants of the past everywhere. Art events and the renowned „Osor Musical Nights“ transform this town during summer into one of the busiest places on the island. You can reach the island of Lošinj by crossing a pull-bridge.

Punta Križa

As this small township is located on a hill, a view of the sea extends on all sides. Punta Križa is the interchange of village trails that lead to various shepherds villages. In view of the fact that this small place is far from the main road and can only be reached via a narrow, winding road, rest and tranquility are guaranteed. You will experience nature yourself in the coastal oak forest, or in jasmine trees and wild animals.

Mali Lošinj

is the largest town in the Kvarner Bay. The beginnings of Mali Lošinj date back to the 12th century when it gradually became a harbor town. At the end of 19th century, the medicinal effects of the island's climate were discovered and the island was transformed into a fashionable Austro-Hungarian winter health resort. Located inside a sheltered cove, surrounded by white houses with red roofs, church and a typical bell tower - that's how you should envisage Mali Lošinj. In the Mali Lošinj of today, there is a hospital, pharmacy, police station, post office, shipyard, banks, numerous shops and attractive coffee houses along the shore. The newly renovated square in front of the harbor draws us to stop for a moment.

Veli Lošinj

is located 4 km south east of the Mali Lošinj. Immediately on entering the port, an imposing Baroque parish church with a bell tower rises into the air. High foreparts on houses inside the port and lavishly decorated villas with blossoming gardens are a special characteristic of this town. Numerous exotic and unusual plants have been brought to the homeland by sailors on distant voyages.
